City of Atkins Hydrant Flushing Program 2023

As part of the annual water main maintenance program and as required by the Iowa Department of Natural Resources water system operation practices. The Atkins Water Department will open selected hydrants to flush fire hydrants. When a nearby hydrant is being flushed, water to area homes may be temporarily discolored. This water will continue to be safe to drink.

When flushing hydrants, we will post an announcement on the home page of the city website: www.cityofatkins.org.
